CHAPTER ONE: CSAM DISTRIBUTION/COLLECTION

✦

TLDR: Daisy and their partner both collect, consume, and distribute child sexual abuse material among themselves and their friend groups, and have been doing so over the course of years. Daisy also has had numerous instances of posting CSAM publicly, as well as having completely inappropriate and sexual conversations with children as young as 13. Their partner is a self identified pedophile who had plans on grooming the same 13 year old Daisy requested nudes from as well as fantasizing about having sex with a (seperate) 14 year old.

The average person never comes into contact with or distributes CSAM in their entire life. The average person never creates or sends revenge porn. Daisy has both received, and distributed various forms of CSAM no less than 5 times within the past two years. Daisy claims all of these instances were 'accidents', you do not 'accidentally' distribute, sell, or collect child sexual abuse material 5 times. Any excuses are just that; excuses. Daisy has proven to lie about these situations multiple times in order to avoid accountability, so make sure you're able to fact check everything you see:

There are multiple victims of the same age. Each one will be given a different fake name for clarity and providing context. Please do not seek out these victims, they are anonymous for a reason. The sex crimes committed against them are not their defining characteristics, they are children and will be kept anonymous out of respect for them.

August / September 2024 Incident:

✦

Between August & September of 2024 Daisy would distribute a well known and disturbing CSAM (Child Sexual Abuse Material) video known as 'Daisy's Destruction' within his discord server and his friends dms. Do not seek out the source material as it is both highly illegal to watch and unlawful to seek out. Unfortunately, it is named in this doc due to various forms of hypocrisy directly referencing the name.

Daisy's First story: He had come across a UTTP video on youtube of a heavily censored and blurred video of Daisy's Destruction and decided to send it to his server (estimated 20+ people) and pinged people to ask what it was. He then outlined parts of the blurred video in an attempt to make out what the video was with the help of his friends. After realizing what the video was, he deleted the server and has since tried to cover these actions up by saying it didn't happen. The video was sent more than once although an exact number has never been confirmed. Despite the relative small-ness of the server, many witnesses to these events have provided testimony; it is imperative to note that an uncensored version of this video was accessible through the video's description. Daisy's later story contains mentions of messing around with a UTTP bot, which led to the link, it is unclear which one is accurate.

There have also been testimonies regarding Daisy sending this video while they were having a breakdown (self-proclaimed manic episodes), but stories vary wildly between people.

It is confirmed by multiple direct witnesses that this video was sent to the server multiple times despite the initial discovery of what the video was; however we do not know why this video was sent multiple times.

Daisy responds to a commenter and lies about him distributing this video, stating that it never happened and that it was 'debunked', saying it 'didn't happen' is insanely misleading even if it was an 'accident' it still occurred.

Note: Daisy has numerously made, and continues to make, the claim that ALL of his "allegations" are "debunked". In his entire Youtube career, Daisy has not ONCE debunked any of the things he did. This is because he ACTUALLY did them, and there is no "debunking", there is only taking accountability. This is a direct downplay of his actions in order to make the opposing party/victims look crazy for pointing out Cupidite's wrongdoings, which is a manipulation tactic genuine abusers use. This is very important information for later situations, especially in this chapter.

✦

February 2024 Incident & May 2024 Incident :

✦

Prim is a 16 year old who was born January 4th 2009, she is an ex-friend of Daisy's. Prim has been accused of being a pedophile at 15 & a zoophile but these claims have never been proven nor fully justified. Regardless of if these actions ever get confirmed to be true they do not excuse Daisy's actions towards Prim.

February 2024 : Daisy coerces Prim into getting on video calls with pedophiles and undressing herself for money. These pedophiles believed they were talking to Daisy, but in reality were talking to Prim. This money was barely kept by Prim, with a majority of the money being sent directly to Daisy.

May 2024 : Daisy had collected and saved photos and a video of Prim masturbating when they were 14 years old and had 'accidentally' distributed this video in his server after they had an argument. Daisy claims this was an accident but this was intentional revenge CSEM. (Child sexual exploitative material). Daisy was having a self-proclaimed 'manic episode' on vc in his server when he decided to send Prim's nudes & CSEM video in his server, all whilst directing people to go look at what he posted.

Daisy would go on to claim the narrative for himself by demonizing Prim to make his sexually exploitative actions towards her justified. Due to Daisy's severe sexual harassment and abuse towards Prim, she is no longer present online publicly. Daisy had also convinced Prim's partner to break up with her and claim that Prim groomed them to push the narrative that Prim is a groomer when she is not. Daisy would also doxx Prim later on and publicly post her face in his videos.

In recent months Daisy has spun the story that he meant to send a photo of one of Prim's messages towards him but instead accidentally sent a video of her masturbating into the server chat. However, this is a lie made up by Daisy to cover his actions. Examining message logs from Daisy and direct witnesses from the days surrounding Daisy distributing Prim's CSEM displays the true situation that unfolded. (This of course being what is explained above).

her especially after she
blamed it on bpd mania

This is the first time Prim was informed that Daisy had leaked CSEM of her. This was revenge child porn and Daisy would go on to claim it was due to his BPD manic episodes (Despite manic episodes not even being a symptom of BPD) and then would later publicly claim that he was never manic, and just 'accidentally' sent CSEM of Prim from his camera roll instead of another image.

◆

Daisy would claim throughout this situation that him leaking Prims CSEM was the result of a manic episode induced by his BPD. However, manic episodes are not a symptom of BPD, they are a symptom of Bi-Polar disorder which Daisy has claimed publicly he does not have. Even if Daisy was in a manic episode, you do not leak child pornography in a manic episode then excuse yourself with that same logic to avoid accountability. Daisy had changed the story completely to make his direct sending of revenge porn seem as 'accidental' as possible.

Hello there. Someone who had committed multiple sexual crimes and groomed me at age 15 has been spreading false accusations to cover up her abuse. I am "Prim" And I will be debunking and providing as much evidence to prove my innocence and hopefully reverse the permanent character assassination @flowerfoi
had brought upon me, my friends and family. If cupidité posts her video painting me as a untrustworthy evil person. I'll PROVE that to be false and provide evidence of her doing the same things she has accused me of if not worse. She is a hypocrite and a pathological liar
who took advantage of my fear of confrontation
to destroy my online presence. She has lied to multiple individuals who have made the mistake
of trusting her, just like I had. I haven't been in contact with her for over 5 months and she brings me into a drama I have no part in. I have been viciously attacked and shunned because o
this individual and had been struggling mentally over the public and private abuse she had endlessly put me through. If you continue your harassment I will have no choice but to introduce the public to screenshots of you abusing me sexually and verbally. I will not be tolerating this any longer.

A friend of Daisy's (Prim's ex) messages Prim encouraging them to give up because they do not believe they can 'defy' Daisy and side with Prim, regardless of if Prim is in the right. This is likely due to the fact that Daisy publicly slanders people who speak out against him, and his friends would rather falsely defend him then risk that same abuse from him.

10/18/25
A direct witness is contacted to give testimony, testimony below;

"I was in the server when prim and flower (Daisy) were still friends and I stopped being friends with flower after the whole issue with them fighting. flower always made rape jokes esp when he was mad about something or at someone and since prim hung out with [redacted] (her ex) and flower a lot she adopted that trait and went along with flower's personality. and flower also pressured prim a lot into talking about her personal traumas and how she was groomed into watching cp and zoophilia by an older man when she was 12 and I saw that Daisy ended up admitting that she had also watched cp. but then in the server prim got mad at one of flower's friends I don't remember why but Daisy ended up kicking prim for an insult and then once flower kicked prim he began slandering prim and misrepresenting prim by saying that she was a pedophile because of what she was groomed into. I remained in the server andin contact with prim in her server and discord. and as they kept fighting for three days, Daisy pinged everyone and told everyone to look. Daisy claims that it was on accident but there was no way this was an accident because even if you have a link you know what it is usually, and to this day he cannot find evidence of what he was trying to show us initially. Daisy also sent the video and said "look" and didn't take it down for 5 minutes meaning he had more than enough time to take it down and also he laughed about it when he sent it. I fully believe to this day that Daisy/Flower is responsible for abusing and grooming prim because of the way he coerced her into sharing sexual and private things she did not want to share. Daisy is older than prim and I will never forget seeing the video he posted because he pinged everyone. He traumatized so many people and groomed so many people because he allowed a friend of prim's named {xxxx} who was 12 and their own friend Balony who was 13 to be in the server while have a 15+ rule and pinged all of these minors. I feel so bad Daisy was 15 almost 16 then and I will never forgive him because not only did he lie he did it twice since then. Showing the tape of dd and pinging everyone and another one just bc he saw them."

✦

The Lime Situation:

✦

July - September 2025 : Daisy is friends with a 13 year old named Lime. Daisy and Lime had been friends for a few years prior and had previously dated. When they were dating Lime lied about their age and Daisy wasn't aware of it until Lime told them when they broke up. They remained friends for years until August - September 2025 when Daisy (turning 17 in November of 2025) would ask Lime (13 years old) for nude photos of themself for Daisy to use as 'pose references' for their character, Agent. (Seen below) Lime complied and sent explicit photos of themself to Daisy, Daisy would then give these explicit photos to his self-identified pedophile girlfriend (Safari) without Lime's consent; essentially distributing a 13 year olds sexually explicit photos to a person with pedophilic intent towards said 13 year old. Safari had made plans to groom and sexually exploit Lime during this time as well.

After being confronted for asking (and receiving) nudes from a 13 year old, and distributing said images to his pedophilic boyfriend, Daisy would lie and state that he was unaware that Lime was 13 because they were 'so mature'. Daisy however, did know how old Lime was and any attempts to deviate from this narrative by Daisy should not be trusted. He would also threaten suicide when confronted and claimed it was all 'false allegations'. During various conversations Daisy had with others around this time, he specifies that he's more upset that his girlfriend 'cheated' on him than the fact that she wanted to sexually groom his 13 year old friend.

After realizing Lime was upset, Daisy makes an attempt to emotionally manipulate them, and when that fails to work, Daisy begins verbally berating Lime and telling Lime that they're a terrible person and that Lime 'ruined' Daisy's life for telling people about him collecting their nudes. Daisy would go into his friend's dm's in an attempt to lie about what he had done. Daisy tries to demonize Lime and spread lies about them associating with bad people despite this not being the case. This friend would also end up leaving Daisy soon after.

Daisy would also attempt to use the following justifications as to why he collected and distributed a 13 year olds nudes :

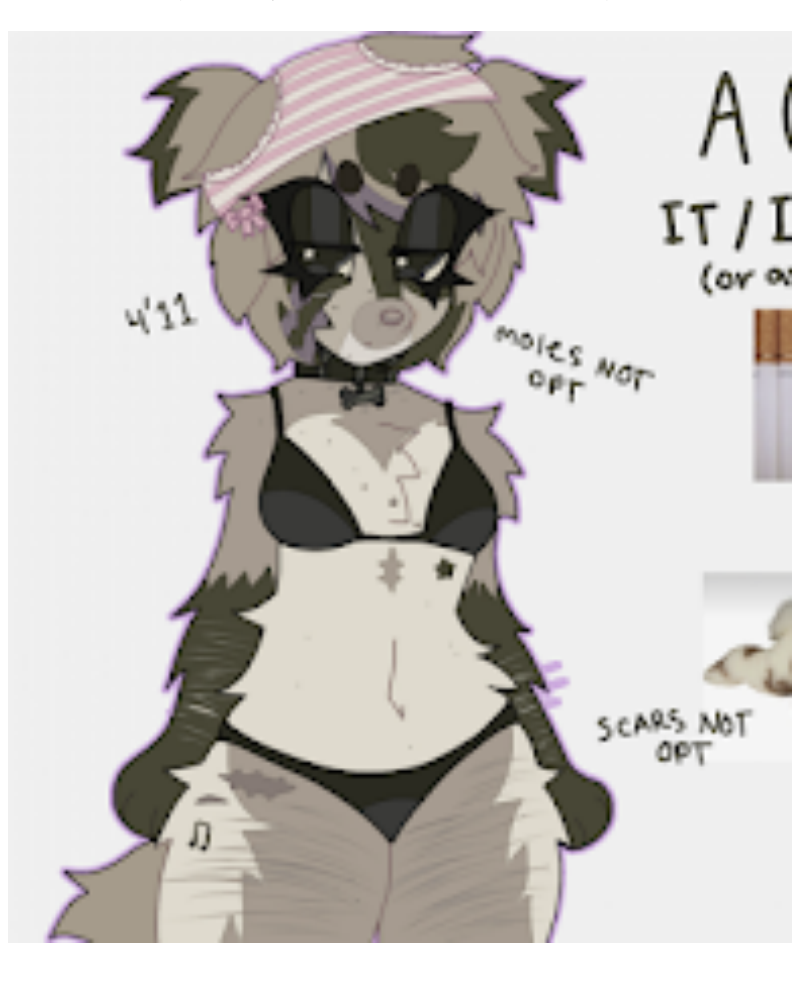
✦ Daisy claims there was nothing romantic or sexual about their interactions with the 13 year old they collected nudes from.

✦ Daisy claims he 'forgot' Lime was 13 because they were 'so mature' so it's not Daisy's fault.

✦ Romeo & Juliet laws justify the sexual interactions between Daisy and the 13 year old.

✦ Daisy claims he was having a 'bpd split'.

✦ Daisy claims his pedophile girlfriend 'apologized' to Lime. (Lime did not accept this apology for obvious reasons).



This is the character Daisy used a 13 year olds nudes as 'reference pictures' for.

The initial incident of Daisy (turning 17 11/21/25) asking Lime (13 years) for nude photos of themself while they were being groomed, then asking if he could share these images with his girlfriend (Safari). Daisy tries to normalize this situation despite Lime's obvious uncomfortable response. Later on in the convo Lime would offer more explicit photos, Daisy (being significantly older) should have never asked for

nudes from a 13yr old in the first place, let alone accept more in the future.

Safari (Daisy's pedophilic girlfriend) makes an 'apology' to Daisy for collecting Lime's nudes, and being sexual with both Lime and another 14yr old. She recounts how she would blatantly sexualize these children in front of Daisy and is more concerned with the fact that she cheated rather than the fact that she was 'cheating' with children. This apology was not accepted by Lime for obvious reasons as it's both insultingly dismissive as well as inaccurate to the other things Safari has done to Lime. However Daisy did end up accepting this apology & forgiving Safari despite the many other sexual crimes she has engaged in with said 13-14yr olds.

After Lime told their other friends about Daisy having their nudes as well as other concerning behavior Daisy would message another member of their friend group with the above statements. Within these statements Daisy would lie about not knowing Lime's age. When the friend Daisy is talking to responds negatively to Daisy, he begins to lash out and throw false accusations at Lime in an attempt to get his friend to believe him over Lime. This friend would end up leaving Daisy due to him collecting Lime's nudes then lying about the context.

Daisy, claiming that her pedophile girlfriend has 'changed' despite having plans to groom Lime (13 yrs old) for explicit photos; then states the 13yr old 'consented' which should not even matter in a grooming scenario like this. Daisy claiming that the 13yr old wasn't even 'hurt' despite being coerced into sharing explicit photos as well as Daisy once again lying about not knowing the 13yr olds age.

However as seen in previous screenshots Daisy fully knew that he was asking a 13 year old for nudes. Also, the line "I keep forgetting you're 13" is an admission that Daisy did in fact know Lime's age.

(Which would lead to Safari streaming sexually explicit content to said 13/14yr olds).

Daisy claims that it's okay for him to ask & receive nudes from a 13 year old because they 'consented.' Lime was groomed by Daisy, due to both that and the age gap the forced consent isn't even applicable here; 13 year olds cannot consent. Daisy also continues to lie about not knowing Lime's age despite (once again) knowing months prior.

[redacted] gf 7:44 PM
I was never attached to safari I was attached to you daisy. I trusted you with the people you put me around and I trusted you with things you asked me to do.

In your defense you say you were blackmailed or forced and im not going to say this didn't happen because I don't have proof it did or that it didn't. But you continue to date said abuser and person who blackmailed and forced you. You choose to continue to let him be around people MY age in the excuse that he has changed and that he doesn't abuse you anymore

I trusted you with everything and you broke my trust by endangering me and showing this to people. I didn't want to show this to anymore but I did it because I wanted to impress you and make you think more highly of me. I didn't want to do it the second you asked but I did it because you have influenced me since forever and me being 5 months into being 13 makes it worse because I genuinely don't know any better. My values and views are warped and I've struggled to hold respect to my body and myself since then. I try really hard to fix it and I always have daisy but it doesn't work like that. Ive cut people off who were bad and I've done everything I should to distance myself from said media and

10/15/25
Daisy lies when talking to Lime and states he never sent their nudes to Safari; and rather it was a screen recording, however Daisy confirms in his 'debunk doc' that it was images. Then why lie to your victim (?)

✦

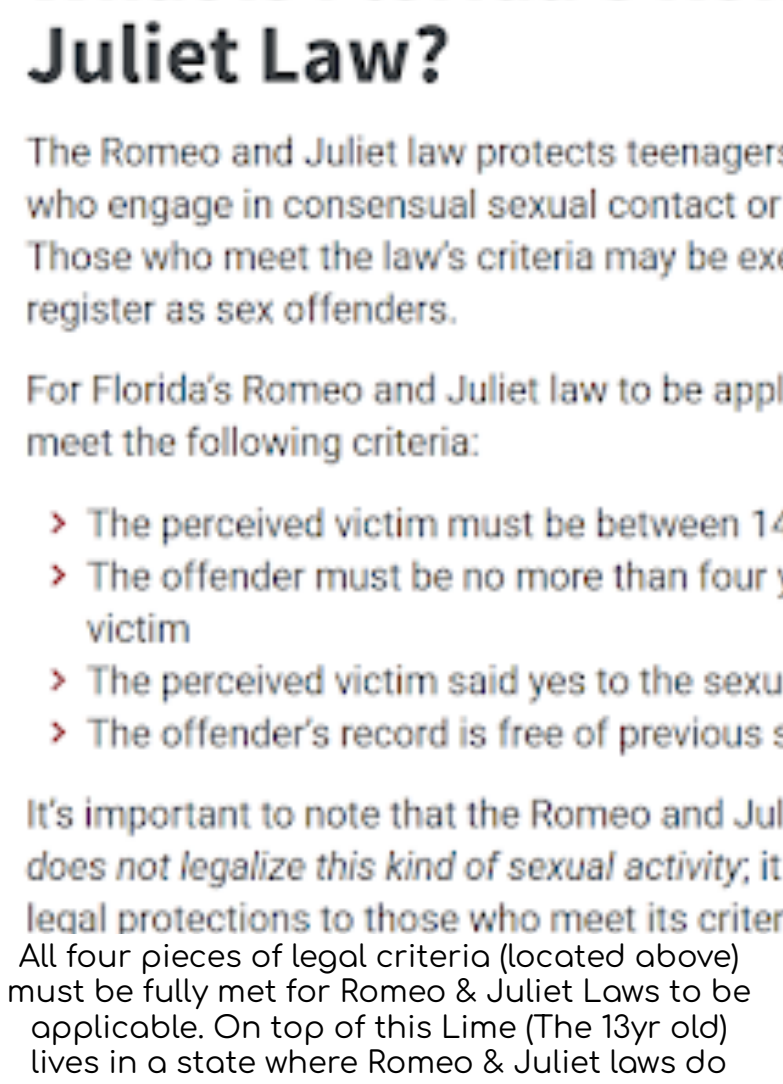
Throughout these conversations Daisy has tried to *legally* excuse his sexual interactions with a 13 year old by stating that **Romeo & Juliet Laws** render this legal and just behavior. Daisy claims that because he is 16 and his victim is 13 that his actions are pardoned under law. However this is both false and ignorant to claim.

What are **Romeo & Juliet Laws?**

> "Romeo and Juliet laws are legal provisions designed to protect young individuals involved in consensual sexual relationships where the age difference is minimal, preventing severe penalties under statutory rape laws."

Why do they not apply here?

Romeo & Juliet laws are not nationwide in the United States, they are specified per state and are not homogenous. And within the state that Daisy resides in (Florida) Romeo & Juliet laws **only apply if the minor is 14+ years old,** Which Lime is not.



What is Florida's Ror
Juliet Law?

The Romeo and Juliet law protects teenagers
who engage in consensual sexual contact or

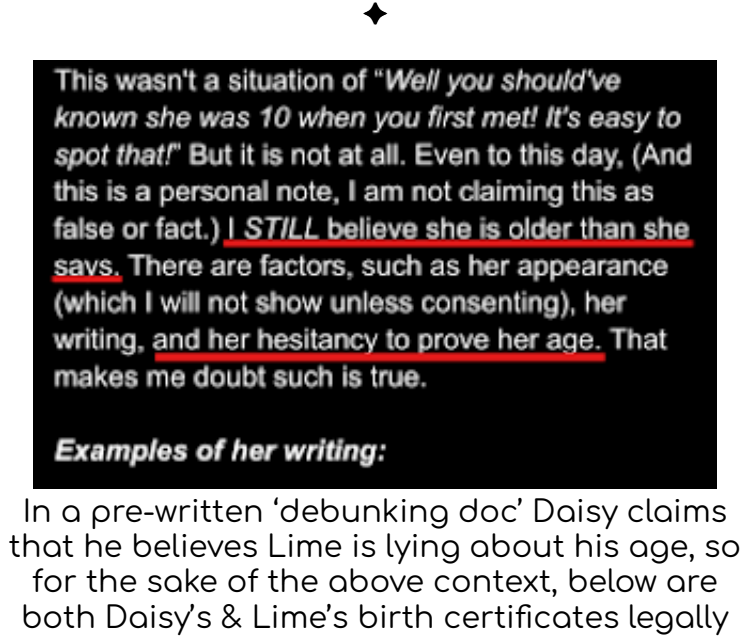
All four pieces of legal criteria (located above) must be fully met for Romeo & Juliet Laws to be applicable. On top of this Lime (The 13yr old) lives in a state where Romeo & Juliet laws do not exist at all, meaning Daisy is legally accountable for these actions whether reported or not.

There is no scenario where this situation is legal due to the local laws in Daisy's area as well as the relative age of the victim.

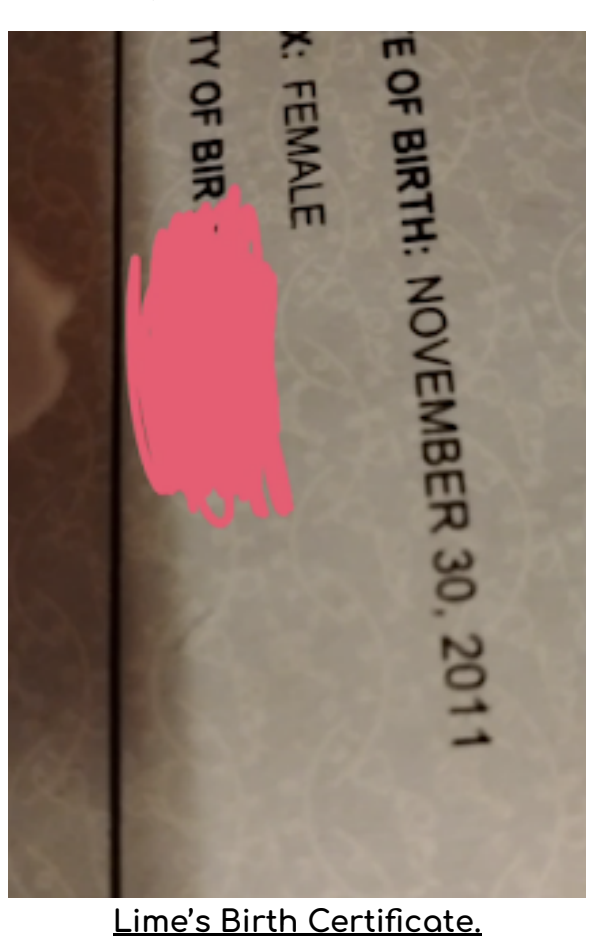
✦



This wasn't a situation of "*Well you should've known she was 10 when you first met! It's easy to spot that!*" But it is not at all. Even to this day, (And this is a personal note, I am not claiming this as false or fact.) I *STILL* believe she is older than she says. There are factors, such as her appearance (which I will not show unless consenting), her writing, and her hesitancy to prove her age. That makes me doubt such is true.

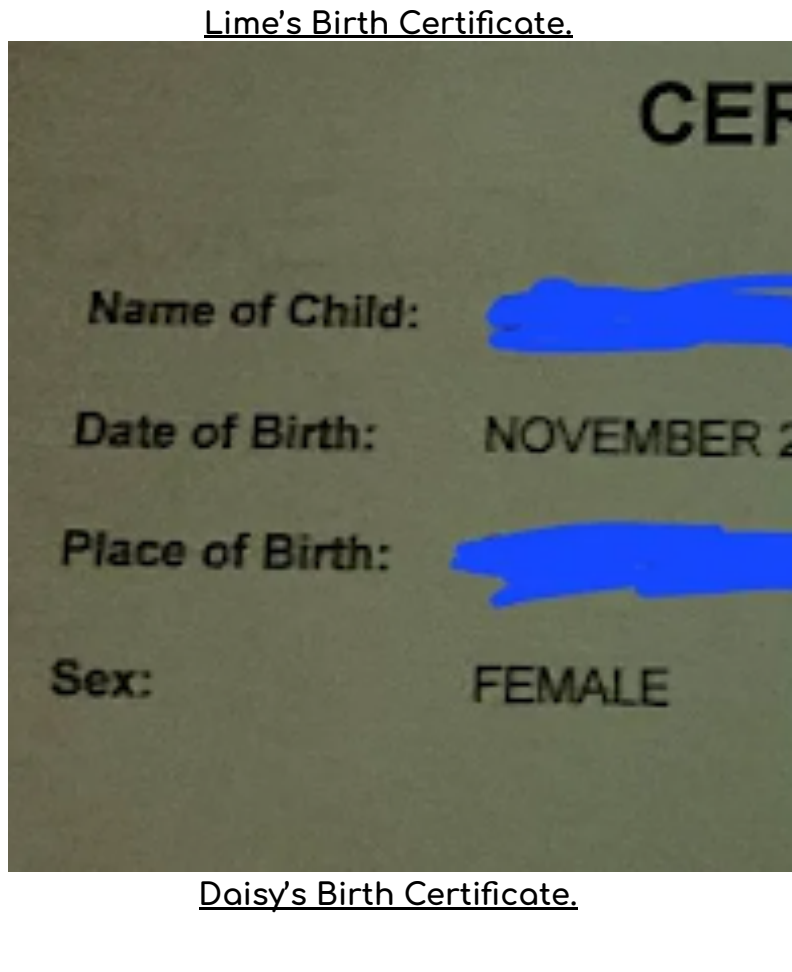
Examples of her writing:

In a pre-written 'debunking doc' Daisy claims that he believes Lime is lying about his age, so for the sake of the above context, below are both Daisy's & Lime's birth certificates legally proving their ages.



TY OF BIR [redacted]
X: FEMALE
E OF BIRTH: NOVEMBER 30, 2011

Lime's Birth Certificate.



CER
Name of Child: [redacted]
Date of Birth: NOVEMBER 2
Place of Birth: [redacted]
Sex: FEMALE

Daisy's Birth Certificate.

Cupidite's Partner:

Daisy's partner, typically referred to as Safari, Saf, Vud, or Vudmurk / luvvud is a self-identified pedophile who has had countless sexual interactions with 13-14yr olds including; collecting the nudes of a 13 year old, numerous overly sexual conversations between both 13yr olds & 14yr olds, streaming websites with cp on them to said children & associating with websites hosted by CSAM distributors.

Whether or not Safari is struggling with a paraphilic disorder does not negate the fact that she has already sexually harmed multiple children & will continue to do so if not regulated. Daisy claims that he has helped 'regulate' Safari's pedophilia, but this is simply not true, and if it is; Daisy has done an awful job. Daisy was aware of Safari's pedophilic tendencies for a long time, and still allowed Safari to not only be in contact with his 13/14yr old friends, but also allowed Safari to be in calls alone with them. Which would prove to be an irreversible mistake as Safari would go on to stream explicit material to them. A person cannot claim they have 'changed' whilst actively harming children, Safari is still a minor currently, but if her pedophilia is not regulated she WILL carry these pedophilic ideals & actions into adult hood.

Safari has also said the n-word on multiple occasions despite being white herself. Although not nearly comparable to the previous this is still something to mention.

CHAPTER TWO: INAPPROPRIATE INTERACTIONS WITH YOUNG CHILDREN

✦

SEPTEMBER 2025:

Daisy was part of a friend group with people aged between 13-17. In this group chat, Daisy would repeatedly bring up and encourage sexual conversations and ask to see nsfw art from the younger people in chat (ages 14). Daisy would also encourage the people in the group chat to draw zoophilic art and he would defend feral nsfw. When an older person in the friend group pointed out to Daisy that this was wrong, Daisy got angry and lashed out at the person calling them out, and proceeded to blackmail the 14 year old upon catching word the 14 year old went to Yummi about their experience.

Daisy encourages a 14 year old to make racist remarks and does not hold them accountable or point out the obvious flaws in logic.
NOTE: Throughout the entirety of the controversy regarding Cupidite making antisemitic, transphobic, and glorifying nazi imagery; Daisy would criticize their friends for "not holding them accountable", excusing responsibility on their part.

Daisy takes out of context messages from the 14 year old (SPECIFICALLY EXCLUDING THE PART WHERE DAISY ENCOURAGES THESE CONVERSATIONS), and publicly BLACKMAILS and names the 14 year old.

Daisy's fanbase begins flooding the 14 year old's comments for behaviors Daisy deliberately enabled.

This is another note, but this is such horrid hypocrisy on Daisy's part because he knows when he was this age and OLDER he was partaking in the same hateful behaviors. At first, those behaviors started because he was groomed and enabled but then he continued saying and promoting hurtful things (see chapters insert chapter numbers about nazism, antisemitism, and transphobia, and overall insensitivity) well after such things and being called out for it. For someone like him to enable the worst behaviors out of a younger person and then use the statements and beliefs HE DIRECTLY enabled from that person, and then proceed to USE those behaviors as a "gotcha!" and send harassment to this child is absolutely DISGUSTING.

This is currently ongoing, there may be more to add.

CHAPTER THREE: MORE MANIPULATION, LYING, AND BLACKMAILING

✦

Manipulating Juni (April 2025)

TLDR; Early 2025 after the first callout video on Cupidite released, Juni (15) would fall into contact with Daisy (16). At the time Juni was not aware of most of Daisy's actions and got in contact with him to make sure he was doing well and eventually Juni would defend Daisy in a video (this was much before any of the recent events). A few months after that a second callout video would have the possibility of being made, this would prompt Daisy to begin talking to Juni again. Juni was under the impression that he and Daisy were friends, and over the course of a few weeks Daisy would begin to convince Juni that his boyfriend (Yummi) was abusing him despite this not being the case. Daisy would use Juni to get info on Yummi, (as well as others) and it would eventually cycle into Daisy manipulating Juni into breaking up with his boyfriend. Juni would vent to Daisy about his issues and Daisy was aware he was paranoid and susceptible to manipulation, and Daisy would use this against him. Eventually Juni told his friends about what was going on between him and Daisy and they would tell him to cut ties with Daisy for his own sake as he suffered an extreme episode due to the paranoia Daisy instilled in him.

Daisy would instill mistrust in Juni by lying to him and saying his boyfriend (Yummi) was doing things that he wasn't. Daisy actively lied about Yummis actions so that Juni wouldn't trust him anymore. The closer Daisy got to Juni the more he would call Juni pet names and be 'sweeter' to him.

Soon after Juni cut ties with Daisy, Daisy would go on twitter and accuse Juni of 'lying about abuse' Juni would respond with a doc clearing up everything and calling attention to what Daisy did to him. Daisy has consistently lied about this situation to make himself look better; often spreading the rumor that he 'just wanted to help'. Daisy would have his friends message Juni and berate him to take this doc down and Juni only did so because he believed that Daisy had a chance to change. (Obviously this did not happen).

To this day Daisy has never apologized to Juni, he has actively spread the narrative that he did nothing wrong and was only trying to help when he made an active and conscious decision to manipulate a susceptible person who trusted him for his own gain. Daisy has also stated that he isn't sorry and only ever began to offer Juni an 'apology' when he assumed Juni was going to speak up.

Daisy & Juni's conversations mainly started with Daisy lying to Juni about things his boyfriend was doing to build mistrust between them. Note that none of the things Daisy claims about Juni's boyfriend are actually true, rather they were purposeful lies to get Juni to trust Daisy and not trust his own partner.

Daisy then switches the conversation into saying he's having a 'breakdown' then immediately asks Juni to secretly give Daisy information about his boyfriend's video. This would become a habit of Daisy using Juni to get information from people later.

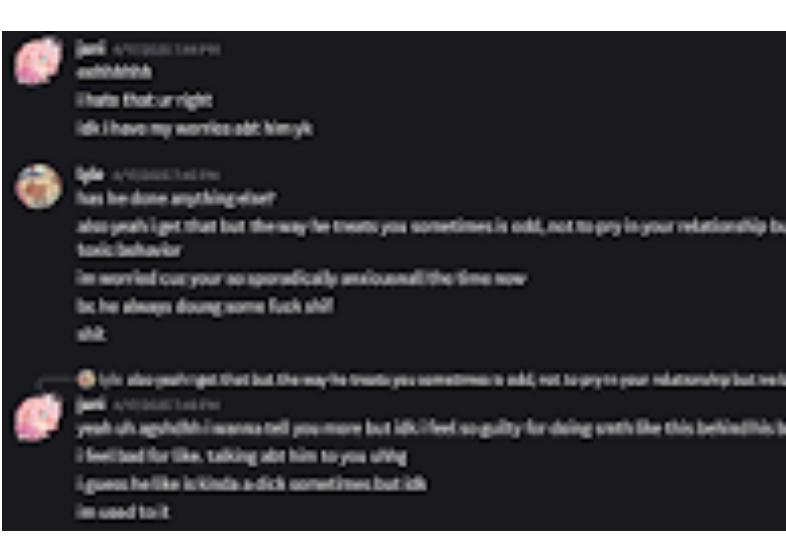
4/17/25
Daisy takes his chance to begin to ask Juni to leak information from Yummi after being convinced Yummi was a bad person. ; Daisy uses the information to pre-write his script, encouraging Juni to break Yummi's trust after being convinced he was a bad person by Daisy. Juni would tell Daisy that he feels guilty for doing things for Daisy behind his boyfriend's back and Daisy would tell him that it was 'the right thing to do'. (?)



juni

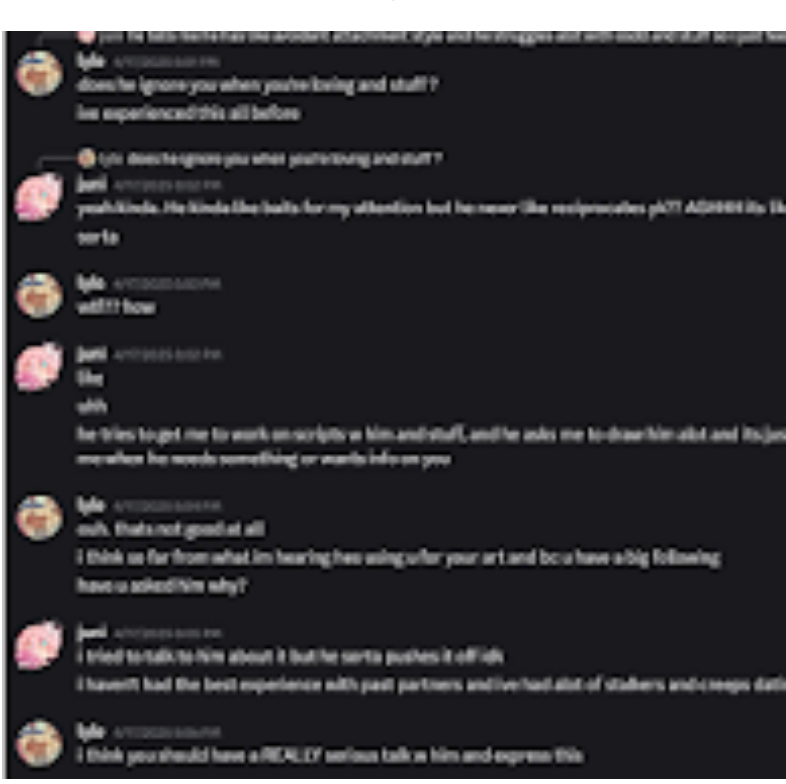
4/17/25
Daisy feeds into the idea that Juni is being abused and mistreated by his boyfriend, Daisy would further instigate mistrust by telling Juni that Yummi was lying to him about his disorders and takes advantage of his severe paranoia to push the narrative that Juni is being severely abused by Yummi.



lyle
does he ignore you when you're losing and stuff?
ive experienced this all before

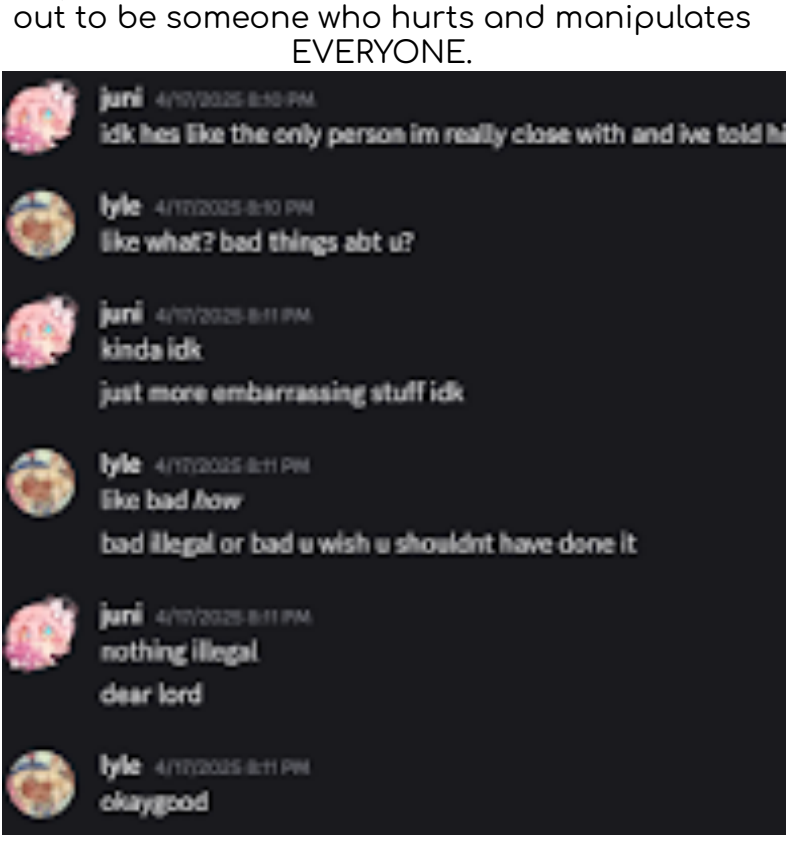
i dont wanna force you to do something but this is clearly not

4/17/25
Daisy was aware of how trusting and paranoid Juni was, but still encouraged him to believe he was being abused. Daisy made Juni believe that small issues within a new relationship was the equivalent of severe abuse, and made Yummi out to be someone who hurts and manipulates EVERYONE.



juni 4/17/2025 8:10 PM

Juni is encouraged to share personal things about himself with Daisy, Daisy has offered to share personal things as well for a 'mutual' talk, but Daisy never did share anything personal and only waited for Juni to. After this Daisy began to be 'sweeter' to Juni and call him things like 'baba' , 'bff' , and other pet names.

Yummi suspects Juni is working with Daisy and (for obvious reasons) is worried and tries to step in. ; Juni lies so that Yummi doesn't find out what Daisy's been saying to him. His boyfriend tries to talk to him since he's worried Juni is being used & manipulated since he's susceptible to that. Daisy would quickly take advantage of Juni and use this as further evidence of his boyfriend being 'controlling' when he was genuinely worried about Juni's safety.

Daisy takes the chance to ask Juni if he can talk about their private relationship issues on call with Safari (Daisy's girlfriend). Juni is uncomfortable but says yes anyways and Daisy tells his girlfriend about the situation, but Juni is never invited despite saying he's not comfortable with his relationship being talked about in secret by people he doesn't know.

Juni states he might leave his boyfriend and Daisy gives the only bit of good advice he ever gave to Juni, although it's unclear if this was backhanded or not. Daisy also starts this convo off by fishing for details on Yummi, seemingly trying to get Juni to say something bad about his boyfriend.

Daisy's last direct message to Juni after Juni's friends advised him to step away from Daisy. Daisy would then publicly claim that Juni 'manipulated Daisy into manipulating them', which was obviously untrue. ; Daisy never apologized to Juni and claims that he never will despite the lasting paranoia it gave Juni & the harm it did to his relationship, he even claims that he tried to 'save their relationship' despite the opposite being true.

Daisy was friends with Juni; in the time they were friends Daisy took advantage of Juni & convinced him that Yummi was a bad person and that Juni couldn't trust him. Daisy did this to get Juni to give Daisy info about Yummi as well as convince them to break up. Daisy would manipulate Juni by falsely accusing Yummi of being friends with bad people and doing bad things, despite none of this being true. (Disclaimer: This was months ago and Yummi & Juni are doing much better now after Juni left Daisy).

✦

The Chipper Situation

For context, Chipper is a former friend of Safari and Daisy's who knew Safari well before Daisy was dating Safari. Chipper has BPD, and a symptom of such is having a "favorite person" or "fp", which means having a very strong attachment to an individual. This can be a friend, family member, or partner and does not always mean sexual or romantic intent. Safari was Chipper's favorite person for a period of time and the two were very good friends, Chipper would view Safari as a little sibling and be protective over him. Upon Daisy entering Safari's life and the two beginning to date, Chipper would notice a change in behavior in Safari (ie, him saying the n word as a white person and overall concerning behavior). Chipper stayed around for awhile, hoping to see the good side of Safari. Chipper would also later develop a crush on another friend of theirs and Daisy's, someone who was the same age as them. Chipper confided in Daisy about this crush and helped Chipper confess, but unfortunately was rejected. Later on, Chipper would distance themselves from Daisy and join Juni's server; upon which Daisy would accuse Chipper of grooming Safari and being a child predator. Months later, Daisy would DM Yummi and have a conversation about this, bringing forth these allegations and trying to provide evidence and also lying about Chipper being older than they actually are.

Daisy dms Chipper on an alt account threatening to expose them for being "weird and obsessive" to their partner and supporting Prim. To clarify, Daisy is saying lies and this will all be quickly debunked. And if you didn't notice, Daisy disproves one of his claims in the message by saying he has proof of Chipper going against the previously mentioned Prim and harassing her.

Daisy messages Yummi and tries to explain that Chipper preyed upon their partner and that they warned Yummi and Juni. They also make allegations about CHipper being racist/antisemtic and saying slurs.

None of these screenshots prove that Chipper had a crush on Chipper, it's all just hearsay or Chipper ACTIVELY denying liking Safari in any non platonic way. Again, Safari was blocked because he began saying the n word as a white guy, and Chipper is black and did not appreciate it at all.

Yummi asks for more screenshots and elaborates on Chipper's point of view. Daisy denies it and throws out more allegations, promising screenshots. Daisy also, instead of disproving Chipper's reasoning for distancing from Safari, throws the allegations back at Chipper. He then proceeds to claim neither him nor Safari actually care about what happened.

Additional note: Daisy has claimed to say "every slur in private" and claimed it isn't out of racism, plus his partner is literally white and says the n word all of the time. Obviously, saying slurs you cannot reclaim is harmful for EVERYONE; however, Daisy is a massive hypocrite for getting angry at people who do such.

Daisy defends lolicon in a conversation and states lolicon is justified because the child characters were 'meant to be cute'.

✦

Nekopara:

Context: Cupidite's a big fan of the series Nekopara, which is a lolicon game containing characters described as being *9 months old.* The game series has sexually explicit content of these characters. It's basically the trope of "she's 18 in cat years!!" but she doesn't even look 18. Also the two main characters are loli incest.

CHAPTER FIVE: NAZISM

✦

Before getting into this section, it should be made clear that this was brought up in the original "CUPIDITE: A WHOLE OTHER LEVEL OF INSANITY" video by Yummicactus. Daisy likes to make the claim that this was debunked, however, it was only ADDRESSED. Not debunked. And soon after it was addressed, Cupidite went on TikTok and claimed the video was full of misinformation, which it was NOT. YES, this means that Daisy's apology was disingenuous and that Daisy NEVER properly acknowledged their faults regarding their appropriation and glorification of nazism.

Context: Cupidite (dorkie) arguing over the reclamation of nazi imagery. For clarification, Cupidite is *not* Jewish.

Lol you cant reclaim nazism. the use of "reclaiming" is such a dumb fucking word. It doesnt matter if theyre POC unless theyre all of the probably 10 ethnicities affected by hitler and his bigotry

You cant turn a uniform that has inspired hate and bigotry into a awesome reclaimed symbol. It doesnt matter if youre jew, which youd have to be a specific ethnic group anyways. You cant reclaim the swastika into a cute little pro-jewish symbol. doesnt work like that

then please, tell me can black people reclaim kkk imagery, and say the n word? is this not literally the same thing? (btw im autistic i word things wrong alot but im genuinely asking, no bad blood)

no they cant lol, you can reclaim the n word but the n word was reclaimed through years of strife. you cant reclaim KKK imagery or a swastika through a day. im autistic too but genuinely think for a second if reclaiming a hateful regime would even be possible when nazis

This is the same shit as thinking that you can reclaim the KKK if youre black as long as you somehow warp it into positive imagery. Doesnt fucking work. Youre still tying a derogatory and bigoted view to your people, you cant reclaim shit like that lol. slurs are one thing

dude im gonna be real
i think we should reclaim fascists outfits especially if you're a minority
because number one; why the fuck do we have to always associate it with the history thats so called not going to be repeated? we aren't erasing any of the victims identity. we still know nazism existed and was heavily harmful and we always will.
it's like, why are you *trying* to keep the fact that its bad relevant? those niggas, unfortunately, had style.
so we should turn it into something better and fun in recent times.
while still remembering the history.

2/6/25
Daisy states that people should 'reclaim' fascist outfits and makes numerous insanely insensitive comments towards the very recent modern history & ends this statement by saying 'the nazis had style'.

Also fun fact: the history IS being repeated in Gaza right now, and so many people (like cupidite) clearly DON'T know the harm of nazism. This is why you CANNOT reclaim nazi uniforms.

And although you may not be fully aware in a manic episode; you typically do not know when you are manic, nor does this excuse anyone's actions. Daisy also perpetuates these same behaviors when he isn't manic; keep this in mind.

Daisy's old discord server chat where Daisy and his friends would make Nazi jokes and jokes about Jewish people.

Cupidite's nazi art:
For context, this character (named peacemaker) was designed as an attempt to "reclaim Nazi uniforms" and turn the Nazism into something more positive. This design is noted to have similarities to Herrman Goering's custom military uniform, as well as an arm band. The Mercedes-Benz logo is used multiple times throughout the design.

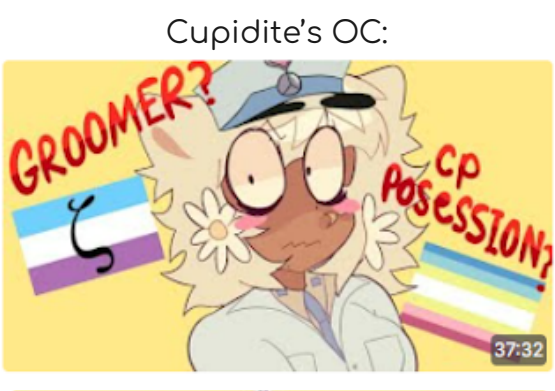
Quick history lesson:

These pictures are slightly altered in color and more saturated, the actual uniform was a bit more grey;

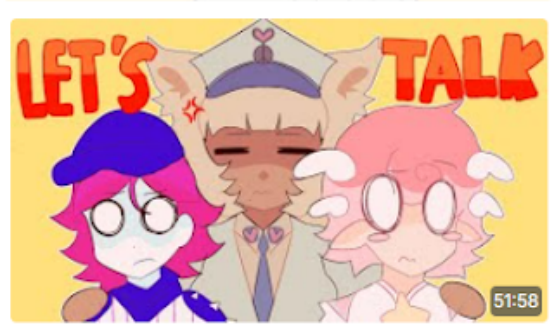
Hermann Göring (born January 12, 1893, Rosenheim, Germany—died October 15, 1946, Nürnberg) was a leader of the Nazi Party and one of the primary architects of the Nazi police state in Germany. He was condemned to hang as a war criminal by the International Military Tribunal at Nürnberg in 1946 but took poison instead and died the night his execution was ordered.

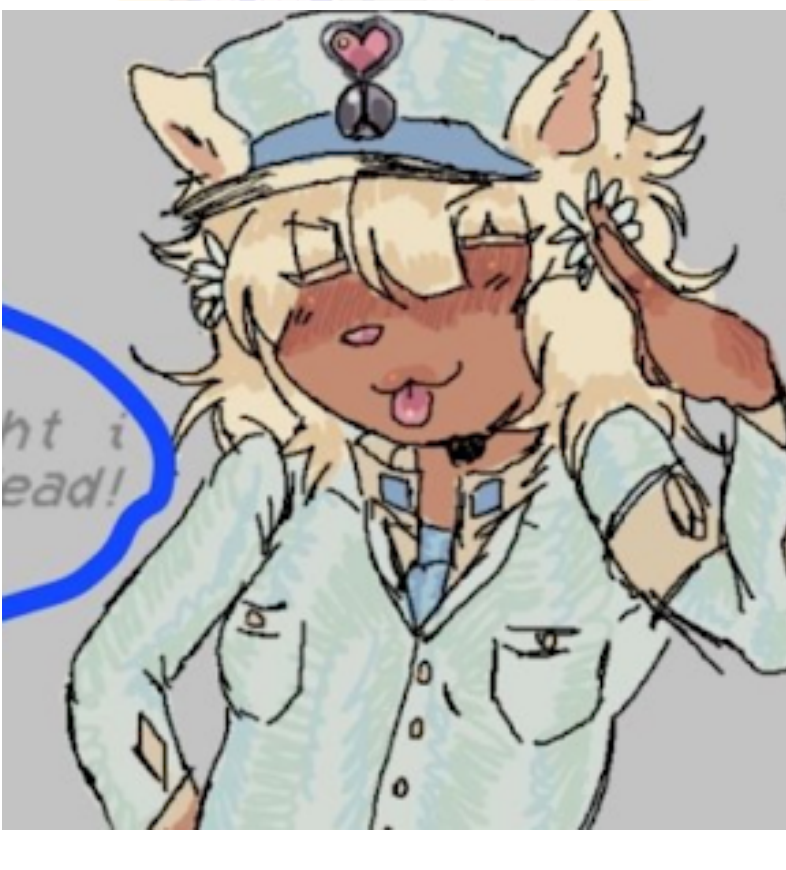
His colossal girth was more the result of glandular defect than of gluttony, but his excessive resort to paracodeine tablets (a mild derivative from morphine) poisoned his system and made recurrent treatment for drug addiction necessary. His addiction helped to make him alternately elated and depressed; he was egocentric and bombastic, delighting in flamboyant clothes and uniforms, decorations, and exhibitionist jewelry.
https://www.britannica.com/biography/Hermann-Goring

Cupidite's OC:



GROOMER?
CP POSESSION?
37:32





The pearl gray uniform was unique to Herrmann, and we see Cupidite using a uniform that seems to be a mysterious combination of different Nazi Uniforms and taking those unique aspects from Hermann's, as confirmed by the "heil sieg" screenshot below, which shows a screenshot of Cupidite's character performing the sieg heil salute, also known as the victory salute or the hitler salute.

CHAPTER SEVEN: ZOOPHILIA

Daisy has made numerous attempts + defenses of feral pornography (pornography depicted realistic animals + their anatomically correct genitals). Daisy has also admitted to drawing such things themselves. Daisy would also normalize these things to a 14 year old, as previously mentioned in Chapter 2.

Daisy goes out of his way to justify discussions and displays of feral porn and zoophilia with a 14yr old; stating fictional zoophilia 'doesn't matter' as long as they know real zoophilia is bad. ; Daisy states that feral nsfw of sparkled dogs is alright because they 'don't look like REAL dogs'. And how zoophilic porn is 'subjective' to whether a person is turned on by it, rather than the genuine concern with creating that content in the first place.

The document regarding Doma's actions is not a reliable source of information, as it has misinformation regarding dates and incorrect/unnecessary personal information about Doma. A more accurate source on Doma's actions can be found here: THE DOMA ICEBERG EXPLAINED

Daisy would make a video defending Doma, in which both him and Doma lied about the contents of the document and failed to address any of the recent information about her.

if there is misinformation in there, it isnt bec proof for most, if not all of the claims. i also so she could prove it *wasnt* misinformation and i am very sure she wasn't based on what aligned with the document.

my video also wasn't "rushed", as the interview hours, compiling and writing everything took took two days. i rarely spend that long makin

claiming its "biased" because i talked to dom is also stupid. my video was not biased. it sin leanway as my situation was very similar to h to change, then i believed with enough pushin hated her for years because she did do some the time, that shes apologized and changed f spoke much after the creation of my video.

It's very clear this comment isn't from a fan In and ofc [redacted] is hearting the comment. really care, im just clearing up some stuffs.

The person that did the interview (cupi on doma it was poorly done, rushed, bi full of lies. I like cupid but that video wa Thank you for covering this i hope dom its shown that she will do more of the actions.

10/xx/25

Daisy clears up that any misinformation in the video isn't his fault, despite making the video and spending longer than usual compiling and editing it. *This is more so just sliding the blame onto Doma while also denying the claim, which doesn't make sense. Is Daisy blaming Doma for blatant misinformation + lying in the video, or is there none at all?*

Daisy follows a lolicon account on twitter, as cited on 185

Daisy's partner is a racist pedophile lolicon as cited on 105-117

CONCLUSION

Daisy has spun the narrative of 'self change' & 'self evaluation' for years, yet repeatedly falls into incriminating and abusive actions. In the most literal sense possible, Daisy has not changed. Due to his audience and fanbase he has fallen into the habit of lying about his actions and blackmailing those with information on him. The sexual crimes he has committed onto his many victims will never 'disappear', they will *never* be 'debunked'. He continues to lie about transpired events because he cares solely about how his audience views him rather than how he treats others.

There is no cure to the sexually abusive trauma he has inflicted on others, and there is no cure to lengths he will go to as to deflect his actions. So I will put this frankly right now:

BPD does not make a person 'forget' the age of the 13yr old they asked for nudes from.

BPD does not make a person leak revenge CSAM.

BPD does not make you promote nazism & antisemitism.

BPD does not make you transphobic.

BPD does not make you promote & encourage zoophilia with a 14yr old.

BPD does not make you a lolicon.

BPD does not negate accountability, these actions are yours, not your mental illness.

Daisy has a habit of trying to make him seem like a reliable source for psychological advice & help when this is far from the truth. He hides behind his non-professionally diagnosed mental illnesses to shift all the blame off of himself and has a stark refusal to apologize or take any lick of accountability for the very illegal things he has done.

He often tries to pick apart the people calling him out to prove that nobody is 'trustworthy' so that people side with him, despite the fact that he has done so much worse, he claims to be attacked by people simply holding him accountable.

Daisy PRE-WROTE a 'debunking' doc to the one you just read a full week before the doc you are currently reading was made public. He does not know what this doc will contain in the future, regardless of this he still wrote a response where he avoids all accountability & victim blames the very children he engaged in sexual conversations & actions with. Nothing says 'im innocent' like 'debunking' allegations you don't even know about and victim blaming the very children you engaged in sexual interactions with.

Nobody is here to tell Daisy what to do, but he has gone from 'predatory' to a predator. His active choice to stay online and engage with children as young as 13 when he clearly cannot behave around them without being sexual or inappropriate is both disgusting and inexcusable.
